

Information Concerning Vaccinations and Mercury Poisoning

<http://www.nvic.org/Default.htm>

This site has a mercury calculator to see how much mercury is in each vaccine. Even different brands of the same vaccine have different amounts of mercury.

<http://www.vaccineinfo.net/>

This site focuses on the vaccination rules in Texas. It clearly explains how to legally not vaccinate your child, and also explains the laws very well. Even many health officials are not familiar with the actual laws concerning vaccinations.

<http://www.mercury-freedrugs.org/>

This site has a lot of information concerning mercury and vaccinations, including a well-researched study on the link between autism and mercury poisoning.

http://www.mercury-freedrugs.org/docs/07930_PR_UrineTestingConfirmsAutismIsMercuryPoisoningb.pdf

This is the study showing a link between mercury poisoning and autism.
